On the cover

“Studying at Griffith helped me see that I could incorporate my values into my career.”

Jennifer Cheung likes to think big. She's worked with Australia's largest airline and the world's largest car manufacturer. Still, she says she didn't find her purpose until she'd finished her MBA and was asked to help create her own sustainability finance role at Australia's largest supermarket chain. “Every day, I provide the financial rigour around our mission to transition to 100% green electricity, have zero food waste to landfill, and net positive carbon emissions,” says Jennifer. “My work has shown me organisations can be both for profit and for purpose. I get to see and be involved in amazing initiatives that change how we live our lives.”

Jennifer Cheung

Master of Business Administration

Acknowledgement of Country

Griffith University acknowledges the people who are the traditional custodians of the land. We pay respect to the Elders, past and present, and extend that respect to all Aboriginal and Torres Strait Islander peoples.

About this guide

This postgraduate study guide provides an overview of studying and student life at Griffith, and will help you decide which degree is right for you.

If you have any questions, call us on 1800 677 728, chat online at griffith.edu.au/study or speak with us at one of our on-campus or virtual events—we'll help you find the right path.

Welcome to Griffith

When you choose Griffith University, you're not only choosing a world-class education that will prepare you to thrive professionally and personally long after you graduate. You're choosing a university that will give you the support, skills and knowledge you need to pursue your passion and make a difference in the world.

Take control of your study

We've put a focus on flexibility. Depending on your degree, you'll have the choice to study on campus, online, or using a combination of both, either part-time or full-time over two or three trimesters a year.

Learn anytime, anywhere

We understand between work and personal commitments it's not always easy to make your way to campus to learn—but that's OK. We're committed to giving our students as much flexibility as possible in how they participate in their studies. We've made a significant number of our degrees available remotely, with option to study either fully online or mixed with face-to-face hours.

We've drawn on decades of experience teaching online to deliver seamless lessons to you at home—or wherever you are. Our lectures and tutorials are recorded, meaning you can catch up when it suits you. Of course, whenever you can or want to come to campus, we're always ready to welcome you.

Fit uni into your life

Depending on your degree, you can choose to study just one course at a time, better allowing you to fit university into your life, or fast-track your study to graduate earlier—whatever works for you. We teach across three 12-week trimesters each year, with degrees starting in March, July or November, so you have more choice about when to start your Griffith journey.

Be prepared for the future

Study an innovative degree

Ranked in the top 2 per cent of universities worldwide, we deliver forward-thinking degrees that will support you to face the future with confidence, competence and the skills and knowledge you'll need to succeed in our rapidly changing world. Our graduates are recognised as being ethically sophisticated, and for contributing to their work and society.

As a university that was designed to do things differently, we've always had one eye focused on the future—and the other on our communities.

Since our foundation in 1975, we have been committed to leading the way in fields such as modern Asian studies and environmental science, and have been long-time supporters of inclusivity, social justice and sustainable practices.

A lot has changed in the past five decades, but our commitment to creating a brighter future remains as strong as ever. That's why we engage in teaching and research that aims to create positive, meaningful change in the lives of our students, their families and friends, and society at large.

At Griffith, our vision as a university is to transform lives and add to human knowledge in a way that creates a future that benefits all. In our approach to our research, societal impact is given equal standing to academic excellence.

Griffith is tackling some of the world's biggest challenges through innovative research that spans disciplines in a range of important fields and informs the latest thinking in our degrees. Every day, our researchers are pushing the boundaries in areas such as climate action, clean energy, violence prevention, child, youth and family wellbeing, disability and inclusion, sports performance, drug design and Australia's geopolitical future.

Practical experiences

Throughout your degree, you may be able to explore a range of valuable practical opportunities made possible through our rich and varied industry partnerships, helping you to access world-class experiences and rewarding careers.

During your studies, you'll also be supported to showcase your job-ready skills to employers. We'll help you highlight practical, contemporary skills gained during your degree, such as interpersonal communication and critical judgement.

Make global connections

Many of our degrees have an international focus, preparing you for work almost anywhere in the world. You may have the chance to enrich and diversify your learning through overseas study or by learning a new language. Such opportunities are valued highly by employers, and open doors to new perspectives, professional networks and personal experiences.

At Griffith...

You come first

Our vision and values are built on inclusive practice, equity and maintaining a safe space for learning and teaching to meet new challenges for our ever-changing world.

From day one, you'll be supported in every aspect of your studies, from help with scholarships, career advice and study skills to finding employment opportunities through our Careers and Employment team. Whether you need learning, personal or financial support—or anything else to make your time at university a more manageable and memorable experience—we're here to help.

Everyone belongs

We believe education is for everyone. As a university where talented students from all backgrounds are supported to reach their full potential, we rank among the highest rates of first-generation family university graduates. We're also proud to have the largest Aboriginal and Torres Strait Islander student population of any university in Queensland.

As a Griffith student, you'll be welcomed into an inclusive community. Knowing that our students learn in a variety of ways, we are proud to offer a range of admission pathways to study with us.

Through our recognition of your work and personal experience, as well as providing the opportunity to apply for credit based on your previous study, we are committed to giving every student the means to succeed and realise their full potential. See page 4 for more information.

You'll learn from the best

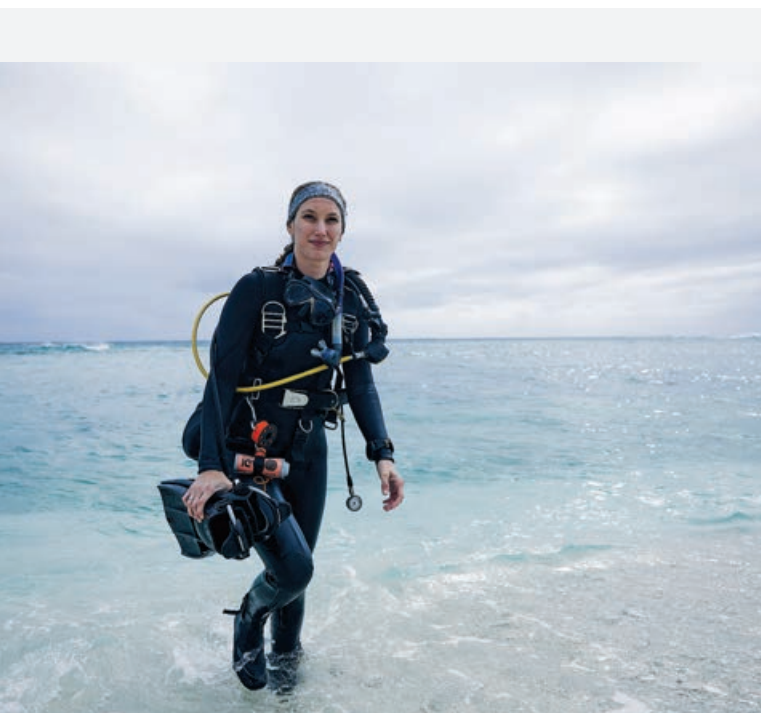

As the home of four Australian University Teachers of the Year, Griffith has a long history of driving innovation and achievement in higher education. Students who learn in this environment are renowned among employers for their skills, experience and work ethic.

You'll join a worldwide network

When you're studying, you'll be part of a community of like-minded students. Once you graduate, your Griffith degree will be your passport to a global network of contacts as you join an alumni community of more than 200,000 graduates who cover every corner of the world.

Across multiple fields, our graduates range from groundbreaking medical researchers to globally recognised musicians, acclaimed artists to CEOs, and marine biologists through to multimedia designers. The world opens up for you when you graduate from Griffith.

For more information, visit griffith.edu.au/alumni

“My PhD research will hopefully have a positive impact on future reef management strategies and restoration work.”

Tessa Page hopes her PhD will change the world—or at least our oceans. Her research focused on climate change's impact on crustose coralline algae, a key component of coral reefs. “My PhD research will hopefully have a positive impact on future reef management strategies and restoration work,” she says. “I also hope the impact of my work provides further evidence that global carbon emissions need to be reduced to protect the stability and functioning of coral reefs. I met incredible people during my PhD at Griffith and will continue to collaborate with them throughout my academic career.”

Tessa Page

Doctor of Philosophy

04 Find your pathway

At Griffith, we recognise both professional experience and previous study as pathways to postgraduate study. Using your qualifications as a starting point, this guide can help find the right type of degree for you.

QUALIFICATIONS AND EXPERIENCE

I have 3–5 years of professional experience

I have a bachelor degree

I have a bachelor degree with honours or postgraduate qualifications with a research component

Be recognised for your experience and advance your career with a formal qualification.

Expand your qualifications in a new or related discipline. Build on existing skills and knowledge or change your career direction.

Take your research experience to the next level.

DEGREE ELIGIBILITY

Graduate Certificate

Even if you haven't studied at university before, you may be able to use your extensive work experience as a foundation and study four courses (subjects) to complete a graduate certificate in as little as one trimester. It's a qualification on its own, or you can use it as a pathway to a masters degree.

Duration:

From 6 months full-time up to 2 years part-time

Graduate Certificate/Graduate Diploma

Use your bachelor degree as a pathway to specialised knowledge in a new or existing discipline or professional area. Take the next step towards a masters degree and expand your career options.

Duration:

Graduate Certificate:

From 6 months full-time up to 2 years part-time

Graduate Diploma: 1–2 years full-time or 2–4 years part-time

Masters by coursework

Give your career a real advantage and become an expert in your field. Build on your bachelor degree or develop knowledge and skills in another study area. Graduates have advanced knowledge for professional practice.

Duration:

1–2 years full-time or 2–4 years part-time

Masters by research

Carry out a significant piece of supervised research in your area of specialisation and present advanced findings in a thesis.

Duration:

1–2 years full-time with part-time options

PhD (Doctorate)

Develop original knowledge in a chosen field through advanced research and preparation of a thesis of original findings.

Duration:

3–4 years full-time with part-time options

Note: This page is a guide only—entry requirements and durations vary between degrees. See griffith.edu.au/degrees for full entry requirement details for specific degrees.

Benefit from postgraduate study

Achieve your career goals and make a difference with a postgraduate degree from Griffith.

Reach your next level

A Griffith postgraduate degree provides a range of benefits while you study, at graduation, and well into the future. Whether you're interested in broadening your skills, becoming a specialist, changing careers, or following your passion, we offer an extensive selection of postgraduate study options. You may be more qualified to study a postgraduate degree than you think; we recognise the knowledge gained through work experience as well as prior study. And with full-time, part-time, online and accelerated study options, you can tailor your study to fit in with your lifestyle.

Increase your earning capacity

A postgraduate degree is an investment in your future earning potential. According to the Australian Government Department of Education, 2022 Graduate Outcomes Survey, people with a postgraduate qualification earn an average of \$24,700 a year more than those with a bachelor degree. Plus, CEO Tracker reports that more than half of Australia's highest-earning and highest-profile CEOs have completed postgraduate studies.

Advance or change your career

As a postgraduate student, you'll be prepared for new job opportunities and take the next step in your career, or pivot to a new path entirely. Obtaining a postgraduate degree may also increase your job security.

You'll gain the broad knowledge needed to step into management roles or hone your skills to take on work as a specialist. Depending on your field, a postgraduate qualification may be needed for professional accreditation or registration, opening the door to more opportunities.

Build your network

Studying at postgraduate level is a great way to make valuable contacts that can lead to job opportunities and lifelong friendships.

The benefits of joining the Griffith community don't stop at graduation either—as a Griffith alumnus, you'll have access to professional development and mentoring opportunities, public lectures, exclusive events, alumni awards and more, ensuring you continue growing in your life and career even after you finish your degree.

Develop skills for life

As well as financial and career benefits, postgraduate study is a stimulating experience that can introduce new ways of thinking to all aspects of your life, so you can do the things that matter to you.

Receive continuing professional development

Postgraduate study refreshes your qualifications by providing the latest skills and knowledge, and can count towards your Continuing Professional Development (CPD) points.

After finishing his undergraduate degree in biomedical science and spending a brief period as a research assistant in a neuroscience laboratory, Brody found himself at a crossroad. He was seeking an exciting and meaningful career, and set his sights on teaching. Encouraged by friends who had studied education at Griffith themselves, Brody says, "I chose to study at Griffith because of its history and a long track record of educating teachers that surpasses a lot of other universities."

Brody Felgate

Master of Secondary Teaching

Here to help

We offer a range of personal, financial and learning services to help you feel confident and comfortable as you balance work, life and study.

Academic and research skills

Our learning advisers can help you understand the expectations of university study and develop reading and study skills, time management and organisational skills, and critical thinking, academic writing and oral presentation skills.

We also host specially designed research skills workshops, which can help you navigate the ins and outs of the library. You'll learn how to find items on your reading list, use the library catalogue and electronic database, and research effectively for assignments.

Self-help resources and Study Smart

We have a range of self-help resources, including a referencing tool and recorded workshops that you can access and view at any time.

You will also have access to Study Smart, an online tutorial designed to develop skills in researching, writing, referencing, group work and exams. For more information, visit griffith.edu.au/library/study

Funding your postgraduate studies

To help ease the cost of your study, we offer a range of financial support options including interest-free loans, scholarships and budgeting workshops.

In addition, FEE-Help provides a loan to eligible fee-paying postgraduate students. Eligible domestic and international students can apply for loans of up to \$1,000 to help with the cost of education and living, or \$1,500 for domestic students seeking assistance with major course-related expenses.

You may be eligible to apply for a scholarship based on your personal circumstances—such as your background and previous achievements—or chosen study area. For more information, visit griffith.edu.au/scholarships

For more information about available financial assistance, see page 13 or visit griffith.edu.au/student-support/financial-support

Griffith offers access to more postgraduate Commonwealth Supported Places (CSP) than ever before. From flexible graduate certificates to selected masters degrees, this opportunity allows you to gain an in-demand university qualification at a significant saving. For more information, visit griffith.edu.au/subsidised-postgraduate

Library resources

Our libraries are the perfect place to study, providing spaces that are adaptable and comfortable. You can access services and resources, meet up for group study or find a space for individual work. In all our libraries we provide computers for study, laptops you can borrow, or you can connect your own device to Griffith Wi-Fi.

Participate in our Earlybird workshops or upskill at your own pace with the libraries' study modules designed to develop your academic, digital and library research skills. For more information, visit griffith.edu.au/library/study

Health and wellbeing

You can get the help you need to manage your life while you're at university. All students have access to a range of personal support services and programs including:

- counselling, to help you when you need support with issues such as study, motivation, relationships, self-esteem, grief and loss, anxiety and stress
- job search and career development to build employability skills
- health services, such as bulk-billed medical consultations, specialist appointments, free nursing consultations and health information
- transition and support services for students from educationally disadvantaged backgrounds
- specialised support for students with disabilities
- chaplaincy, where you can discuss life's challenges, explore spirituality, faith and social justice issues and meet other people interested in religious matters
- personal development programs to grow skills for life and study (resilience, adaptability, financial literacy, etc.).

You can access our services and programs in person, by phone or online. For more information, visit griffith.edu.au/student-support

International students

If you're from a non-English speaking background, you can improve your skills through EnglishHELP (English Higher Education Language Program). This free service offers individual support to help you build confidence with speaking and listening, improve your knowledge of grammar and your pronunciation, and learn to write academic reports. Explore EnglishHELP's free online resources at griffith.edu.au/englishhelp

You'll also have access to our International Student Advisors, who offer personal support and can help you with study-related issues. For more information, visit griffith.edu.au/international-student-advisors

“I will never forget the support my teachers and peers gave me. I continue to have a strong connection with Griffith as a mentor, alumnus, lecturer and through my research.”

“While undertaking the Doctor of Medicine at Griffith, a car accident left me with a spinal cord injury and quadriplegia. Even when I was in the ambulance, I had no doubt about finishing my studies at Griffith—it was just a matter of when. In those first days in the ICU, the waiting room was full of students and teachers. I feel like I’ve done more in the 10 years since the accident than I had in my life before!”

Dr Dinesh Palipana OAM
2021 Queensland Australian of the Year
Doctor of Medicine

A place for everybody

At Griffith, everyone belongs—here's how we're making our university a welcoming, accessible and equitable space for all.

Students with disabilities

We provide disability support services on all campuses. These services, coordinated through our Student Services office, enable students with disabilities to access and participate in our learning environment. Support includes:

- coordinating Auslan interpreters
- modified physical environments
- negotiating reasonable adjustments for study and examinations
- access to assistive technology arrangements for required readings to be converted to accessible formats.

For more information, visit griffith.edu.au/disability

Future students should contact the Student Disability and Accessibility Service:

Email: disability@griffith.edu.au

If you are deaf or hard of hearing, you can contact the Disabilities Service Officer directly on:

SMS/text messaging only: +61 (0)408 987 639

Email: deafstudentsupportprogram@griffith.edu.au

Transport, parking and bike facilities

Our campuses have easy-to-access public transport and parking. If you plan to drive to university regularly, you can apply for a Trimester or Annual parking permit for your primary campus. Alternatively, casual parking is available in daily and two-hour zones.

Parking permits are released several times a year, and availability is strictly limited. For more information, visit griffith.edu.au/parking

If you'd like to reap the health and financial benefits of cycling to university, all our campuses feature bike racks and publicly accessible showers at multiple convenient locations.

Gold Coast and Nathan also house dedicated end-of-trip facilities for cyclists, including lockable bike sheds, showers and lockers for personal belongings such as bike helmets. For more information, visit griffith.edu.au/bike-racks-and-end-of-trip-facilities

Childcare

Nathan campus has two childcare centres offering quality education and care for children from three months of age to five years. For more information, visit griffith.edu.au/childcare or email childcare@griffith.edu.au

Childcare facilities are also available close to the Logan, Mt Gravatt, Gold Coast, and South Bank campuses. These centres can be found on the mychild.gov.au website.

LGBTIQ+ support and inclusion

As a proud ally of the LGBTIQ+ community, Griffith is committed to providing a safe, welcoming space for everyone on campus.

All of the University's policies are LGBTIQ+ inclusive, and we have guides in place to assist students affirming their gender (transitioning), where needed.

We also encourage our students, staff and visitors to use the facilities they are most comfortable with and/or reflect their affirmed gender. Specific all-gender bathrooms are available at Nathan's Engineering, Aviation and Technology building (N79). All-access and disability-friendly bathrooms are also available for use.

Additionally, Griffith's Counselling and Wellbeing team work to support our students' health by providing a confidential LGBTIQ+ specific counselling service for people of diverse sexualities and genders.

Other useful supports available on campus include the Griffith Ally Network, Safer Campuses initiative, Student Services, the Student Representative Council, Student Guild and student clubs. All students have access to SBS online courses on diversity and inclusion.

For more information about LGBTIQ+ support and inclusion at Griffith, visit griffith.edu.au/equity/lgbti-inclusion

Learn online

With a range of online study options to choose from, fitting a degree into your life is easier than ever.

A history of excellence

For more than 20 years, Griffith has helped thousands of business leaders, teachers, lawyers and more achieve their goals studying online. This means we know how to support and guide you to success.

While enjoying the flexibility to study wherever and whenever you like, you'll be connected to a vibrant community of peers and teachers, with easy access to expert knowledge from award-winning academics.

Balance and flexibility

Griffith's flexible online degrees are designed to help you find the room to fit study into your life, whatever your current schedule. We have a range of online study options so you can slow down, accelerate or switch modes because of other personal and professional commitments.

- **Online only**—Study anywhere, anytime. All learning materials and assessments are accessible online, wherever and whenever you choose to study.
- **Accelerated online***—Your degree is broken into short, intensive bursts to make your learning experience more focused. You can work through your degree one course at a time over a six-week block, and still graduate in two years.
- **Fully flexible**—The most flexible way for you to gain a degree. If you want the option to switch study modes (part-time or full-time, online or face-to-face, or a combination of both) to match your changing needs, this mode is for you.

In order to get the most out of online study, we recommend setting aside time to access your course materials at least five times a week, which will significantly bolster the chance that you'll continue through, and succeed in, your degree.

Where possible, we also suggest breaking your study into small, digestible sessions across each day rather than trying to block out a large, uninterrupted period.

See the table on the adjacent page for more information about study modes.

Learn and connect

Studying online doesn't mean studying alone. Wherever you are located, you can join the conversation and engage with a community of like-minded students and staff in an interactive and collaborative digital learning environment.

All courses have dedicated discussion boards, so you'll be able to network, share ideas and ask questions, ensuring you are able to connect with your course content in a meaningful way regardless of physical distance.

There are other benefits to engaging online with your peers too, including the ability to learn from other students, develop an understanding of other perspectives, and gauge your own knowledge and performance, all of which can have a material impact on your results and overall learning experience.

In addition to flexibility and convenience, online study provides the opportunity to develop your digital literacy skills, confidence and capabilities to work remotely—all qualities highly valued by modern employers.

Dedicated support

No matter which mode you decide to study through, you'll have all the support you need to succeed in your degree, including:

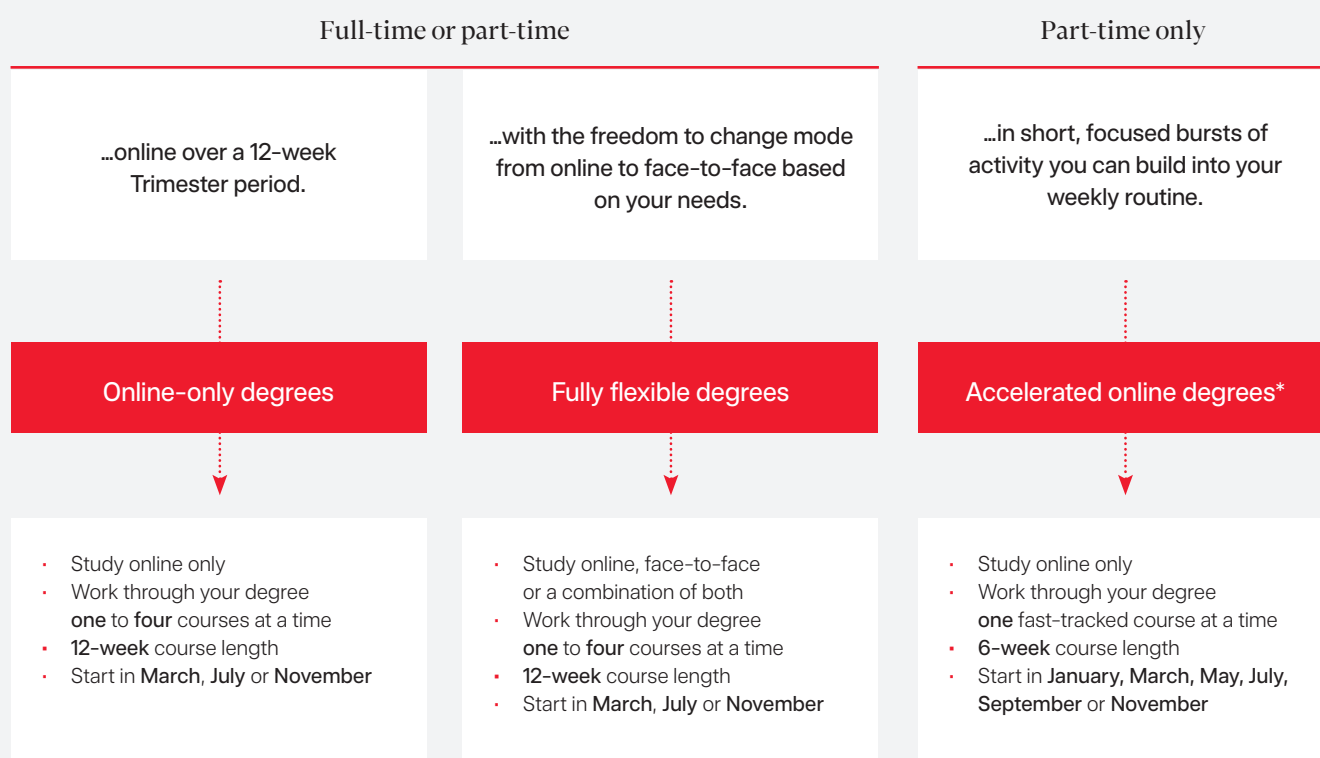

- academic and student support advisers
- access to IT support and self-directed learning tools
- online tools including 24/7 access to online library and digital resources such as eBooks and journals
- financial assistance
- health and medical, equity, welfare, counselling and chaplaincy services.

See page 6 or visit griffith.edu.au/student-support for more information about the student support services we offer.

* Accelerated online mode is only available for a limited number of degrees. See griffith.edu.au/degrees for more information.

Which study mode suits you?

Whether you're balancing work, family or just life in general, we understand that study isn't your only commitment. That's why we offer three ways to study online, giving you the freedom to mix and match to suit your changing needs.

* Available for a limited number of degrees

For more information about online study modes, visit griffith.edu.au/online and explore our study planner at griffith.edu.au/online/study-planner

Frequently asked questions

Here are the top questions asked about life as a postgraduate student.

Where do I start?

There are three steps to consider when thinking about taking on postgraduate study.

- **Decide what you want to achieve**—Do you want to take your career to the next level, have your experience formally recognised, change careers or follow your passion? Some postgraduate degrees are designed to broaden your skills to prepare you for management positions, while others allow you to specialise further to become an expert in your field. If you're thinking of taking your career in a different direction, look for degrees marked with the arrow icon starting on page 17.
- **Explore pathways**—We recognise work experience, prior study and other formal, informal and non-formal learning, so you may be more qualified to study a postgraduate degree than you think. If you have three to five years of relevant experience, you may be eligible to enrol in a graduate certificate, which is a qualification on its own but can also lead to further study such as a masters degree. See our pathways table on page 4.
- **Develop a tailored study plan**—Work out how much time you can commit to study, accounting for your learning and lifestyle needs. Depending on what you study, you may be able to study full-time, part-time, online or through intensive workshops. Visit our Study Planner at griffith.edu.au/online/study-planner to help you get started.

Should I choose a coursework or research degree?

The type of study you undertake will depend on what you are trying to achieve.

- **Choose coursework if you want to advance your career, or change career direction**—A postgraduate coursework degree (such as a graduate certificate, graduate diploma or masters by coursework) builds on the skills and knowledge you've gained through professional experience and previous study. You'll study courses that may involve lectures and tutorials, laboratory practice, or fieldwork.
- **Choose a research degree if you want to discover new solutions**—A research degree, such as a Doctor of Philosophy (PhD) or Master of Philosophy (MPhil), will allow you to complete a significant piece of research under supervision. You can also choose to undertake a masters by research degree, which is a specialist degree in areas such as arts, education, design, medicine and music that combines coursework with professional and/or artistic practice.

How much time does study take?

Many of our postgraduate students also work full-time and balance a range of other commitments with their study.

Most of our degrees offer flexible options so that you can study where and when you want to. For example, you may choose to pace your study and complete one course each trimester, requiring about three hours of class time plus non-class time for readings and assignments, averaging about 10 to 12 hours a week for each course you undertake. Or you could pick up extra courses each trimester to fast-track your study and finish sooner.

We also offer intensive study mode for some courses, which completes the bulk of the course over several days in a row, often including at least some weekend class time.

For more information, visit griffith.edu.au/degrees

What should I expect from online study?

If you're concerned about missing out on key elements of university life by studying online, you can rest assured that our 20-plus years history of teaching online will ensure your experience is as smooth, robust and easy to navigate as possible.

- **Study time**—Whether on campus or online, a similar number of study hours are required to succeed in your courses. When you study online, you're in charge—you set your own timetable and can schedule your study whenever suits you. Remember, you're not alone—we can provide a range of learning support services to help you stay on track. See page 6 for more information.
- **Making connections**—Our online courses include access to resources such as web chat and discussion boards to ensure you're able to engage with your classmates and the course content itself regardless of where you are when you're learning. For more information on studying online at Griffith, see pages 10–11 or visit griffith.edu.au/life-at-griffith/online
- **Technology**—In order to comfortably manage your study requirements, we recommend using a computer with the following features:
 - sufficient memory and processor speed to handle files such as multimedia and video
 - a fast broadband, cable or satellite internet connection
 - a webcam and microphone
 - general business software such as a word processor, presentation platform and spreadsheet program.

As a Griffith student, you'll have access to the full suite of apps available online through Office 365 for Students, including Word, Excel, PowerPoint and Outlook.

Our Thrive Online website can provide further advice and support tailored to your individual circumstances, from before you start your degree right through to graduation.

For more information, see griffith.edu.au/thrive-online

How will I pay for it?

Scholarships and government support options are available to assist with financing your study. If the degree relates to your current job, your employer may provide an allowance or support you with study leave for exams.

- **Deferring costs with FEE-HELP**—FEE-HELP is a government loan for Australian citizens and specific visa holders that allows you to defer the costs of study. You repay your FEE-HELP debt through the tax system so that, other than study materials such as textbooks, there are no upfront costs. For more information, visit studyassist.gov.au
- **Financial assistance**—Once you are at university, our welfare and student liaison officers can help you plan budgets, apply for loans and equity schemes (if you qualify), and explore other financial options. For more information, visit griffith.edu.au/scholarships/student-financial-support
- **Scholarships**—You may be eligible for a scholarship based on your background, chosen study area or achievements. Please note that postgraduate scholarships are limited in both number and scope, so are highly competitive. For more information, visit griffith.edu.au/scholarships

How much will it cost?

Costs vary depending on the type of study, as follows:

- **Coursework**—All postgraduate coursework degrees attract tuition fees. These fees differ depending on whether you are an international or domestic student, and include student services and amenities fees. Find out more about tuition fees for all postgraduate coursework degrees at griffith.edu.au/fees-charges
- **Research degrees**—The Australian Government Research Training Program and Griffith University funding cover Australian students' tuition fees for most research degrees. For more information about tuition fees for research degrees, visit griffith.edu.au/research-study

For indicative costs for specific degrees, visit griffith.edu.au/degrees

It's been a while since I last studied—how have standards and requirements changed for writing, referencing, assignments and exams?

Our online Study Smart program is designed for people who haven't studied for a while. The program will give you an opportunity to brush up on your skills in areas such as academic writing, referencing, research and exam preparation. For more information, visit griffith.edu.au/library/study

“It’s important for me that my kids know I am doing something to protect their future and that of other generations.”

Rachelle Hansen
Maste of Business Administration

How to apply for postgraduate study

Take the next step in your career and apply for postgraduate study at Griffith.

01

Choose your degree

Browse the degrees section in this guide starting on page 17.

Our website has more detailed information about our range of postgraduate degrees.

Visit griffith.edu.au/degrees

If you have any questions, call us on 1800 677 728 or email us at postgradenquiries@griffith.edu.au and talk to our study advisers.

02

Submit your application

Postgraduate study applications are submitted online directly to Griffith via griffith.edu.au/degrees. You can apply for up to three degrees at the same time.

Admission requirements, supporting documents, closing dates and other specifics vary, so make sure you check the details for your chosen degree(s).

Note: Master of Primary Teaching and Master of Secondary Teaching applicants need to apply via QTAC, through which applicants will undertake online tasks to demonstrate their motivation and suitability to teach.

03

Apply for credit for prior learning

Once you have an offer to study, you can apply for credit for prior formal, informal and non-formal learning.

Applications for credit may be lodged at any time. However, we strongly advise applying as soon as possible after you receive your offer, as it may impact the courses you enrol in.

To find out more, visit griffith.edu.au/credit

This information relates to the following applicant types applying to study at Griffith University:

- Australian citizens
- Australian Permanent Residents (holders of all categories of permanent resident visas, including humanitarian visas)
- New Zealand citizens.

If you're an international applicant, you can apply for postgraduate coursework degrees directly to Griffith International.

Find out more at griffith.edu.au/international

Secure your place

Once your application has been assessed, you'll be notified of the outcome by email. The email will contain information on how to access your student portal and other timely tasks that you may need to complete to secure your place.

If enrolment is open, you will be able to enrol in your classes. If enrolment is not yet open, we will let you know via your student email when it is so you can start selecting classes and creating your timetable.

For more information on the application process, please scan the QR code or visit griffith.edu.au/apply

Postgraduate coursework

A Griffith postgraduate qualification can take your career to the next level—or take it in a new direction.

As part of assessing applicants for admission to a range of our postgraduate degrees, Griffith recognises the knowledge gained through prior learning and professional experience, as well as other forms of formal, informal and non-formal learning.

Many of our degrees offer professional development opportunities for specific fields, giving you the chance to build on your previous studies and work history.

↗ If you're thinking of changing careers, degrees marked with this icon can help you take your career in a different direction.

📶 If you want to study online, degrees marked with this icon can give you the flexibility to study wherever and whenever suits you.

If you're starting a degree at the Mt Gravatt campus in 2024, you'll transition to the Nathan campus in Trimester 1, 2026.

For more information about postgraduate study, visit griffith.edu.au/postgraduate

English Language Proficiency Requirements

All applicants must demonstrate that they meet the English Language Proficiency (ELP) requirements for admission. Most applicants would meet these requirements through the completion of studies and/or employment within Australia. If English is not your first language, or you haven't completed your entire qualification in English and in an approved country, you may be required to complete an English Language Proficiency test such as IELTS.

Some programs with accreditation and/or registration requirements may require you to have completed your secondary studies or other qualifications within a strict country list as well as having completed your studies in English.

For more information on language requirements for your intended program visit griffith.edu.au/degrees

Griffith Professional

If you're looking for a faster way to develop your skills and career prospects without committing to a full degree, Griffith Professional may be the answer for you.

Griffith Professional is our range of professional courses developed in recognition of the emerging economy and designed to give you maximum flexibility and control over your future.

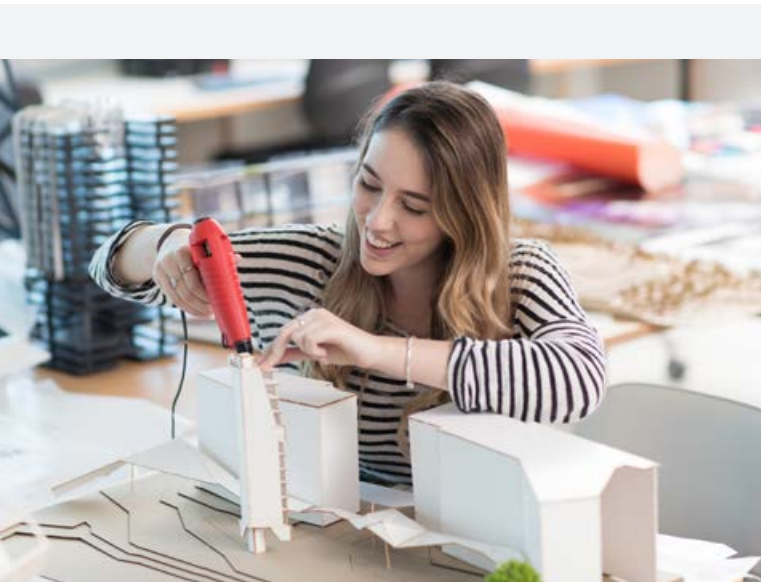

Griffith Professional courses can be undertaken online, and require about 10–12 hours of study a week.

We recognise work experience as well as tertiary qualifications, meaning if you have at least three years of professional experience in a related field, you may meet the entry requirements.

With many individual courses to choose from in areas from public health, sustainability, and business leadership to renewable energy, digital capabilities, education and learning environments, human services, and beyond, we're bound to have a course to suit your needs and help you stand out.

For more information, visit griffith.edu.au/apply/professional-study

Note: The degree information listed in the following tables is an overview only, and subject to change. See griffith.edu.au/degrees for more details.

“I was drawn to the balance between practicality and the responsibility of improving quality of life through design, and chose Griffith because it had an excellent reputation.”

Isabella Cox
Master of Architecture

[#] External study off-campus at a contracted flight training provider organisation.

[^] Commencement date may vary and will be confirmed upon acceptance into the program.

Martin Toumbev says he has had the pleasure of operating flights to every corner of the globe. "While studying online with Griffith, I began as a pilot for a cargo airline," he says. "I flew for several years and held instructing roles aided by my course knowledge, before being hired by Air Canada. Starting as an instructor, I upgraded to the Boeing 787 within a couple of years, and currently serve as First Officer. My Griffith studies laid an excellent career foundation, which I continue to build on through my flying and teaching."

[@] Includes some on-campus intensives.

[%] The Trimester 3 intake is available at Nathan and online.

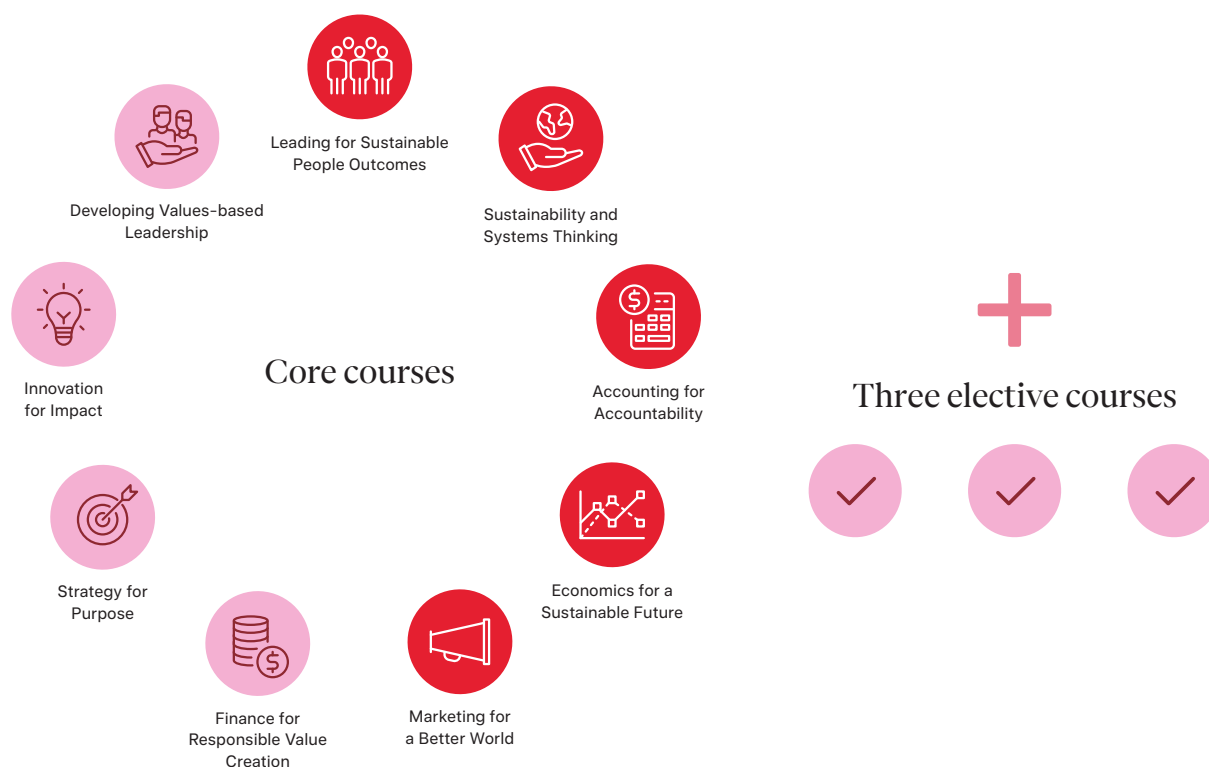

[#] Offered in conjunction with the Australian and New Zealand School of Government (ANZSOG).

[&] Non-sponsored students will complete this program online.

[§] Griffith offers alternative admission criteria for this degree, such as formal, informal and non-formal learning. See griffith.edu.au/degrees for details.

Griffith MBA structure—fully flexible delivery

The Griffith MBA is available as both a fully flexible and accelerated online degree. The MBA provides a transformational journey to extraordinary, values-driven business leadership for a sustainable future for us all. See griffith.edu.au/mba for more information.

With an impressive background in government relations and public policy, Sean Jacobs is using his Griffith MBA to help shape the future of his community—and South East Queensland more broadly. The recipient of the 2021 Queensland Business Weekly (QBW) Griffith MBA Responsible Leadership Scholarship, Sean works as a Principal Advocacy and Major Projects Advisor at Moreton Bay Regional Council. In this role he helps to deliver the Council's advocacy agenda and provide expert advice and project coordination for major infrastructure projects and strategic interests including the 2032 Olympic and Paralympic Games. "The Games offer co-benefit opportunities for Asia-Pacific nations, and this is a relatively underexplored approach that I hope to use Griffith MBA skills to inform," he says.

[~] The Trimester 3 (November) intake will not be available to those students entering with advanced standing.

“My study has given me the perfect balance of practical knowledge and theory.”

It was while completing his honours in psychology at a Gold Coast school that Phillip Pearce first realised teaching would become his reason for being. “I always had a passion for child developmental psychology, and I discovered I loved being in a school environment, so I enrolled in the Master of Primary Teaching at Griffith,” he says. The flexibility of his masters degree enables Phillip and other students to work while studying. “I can structure my timetable around work. It’s intense but manageable,” he says. “The lecturers come from the classroom, so they are all very experienced. We can be discussing various pedagogical theories, and they can relate it to real life. It’s made me more confident in my pracs, and I know teaching is the right career for me.”

Phillip Pearce
Master of Primary Teaching

[^] Not all majors can be completed at both campuses. See griffith.edu.au/degrees for details.

“Studying at Griffith was one of the great experiences of my life, and I will always cherish it.”

Master of Environmental Engineering and Pollution Control graduate Nutan Gothwal directly credits her time as a Griffith postgraduate student with preparing her to successfully pursue a job she is deeply passionate about. “Griffith University is the only institution that offers this course across Queensland,” she says. “From my experience, having conceptual knowledge alone is not enough; you must be able to sell yourself as an employee when in an interview, and my degree’s curriculum has played an important role.” Now thriving in her position as an environmental engineer with Engeny Water Management, Nutan says in addition to aiding her professional development, her experience at Griffith also helped her grow as a person. “The biggest strengths of my degree were the faculty members and practical learning,” she says.

Nutan Gothwal

Master of Environmental Engineering and Pollution Control

Dentistry career pathways

Human services career pathways

* Specific admission criteria apply. For some programs, those who do not have an undergraduate qualification will be assessed on their professional experience and ability to undertake graduate study. For further information refer to griffith.edu.au/degrees

^ Practice pathways or research pathway available

For more information about specific career pathways, refer to the relevant degree page via griffith.edu.au/degrees

"A career as a medical professional combines my compassion for humanity with my love of science. It's a direct path to helping those in need, which I believe is one of the most profound ways of enriching your life's purpose. I chose Griffith to study medical science because of its globally recognised health programs that nurture and support students to become the next generation of healthcare leaders. I have now transitioned to the Doctor of Medicine and continue to see Griffith as a powerful vehicle for achieving my goals."

* This degree provides the option to graduate sooner with an alternative qualification such as a graduate certificate or graduate diploma upon successful completion of relevant courses. See griffith.edu.au/degrees for details.

§ Different durations are available depending on your previous studies.

This degree is an extended masters program (AQF Level 9).

^ This degree is available at the Sunshine Coast, at the Sunshine Coast Health Institute, 6 Doherty St, Birtinya QLD 4575.

Midwifery career pathways

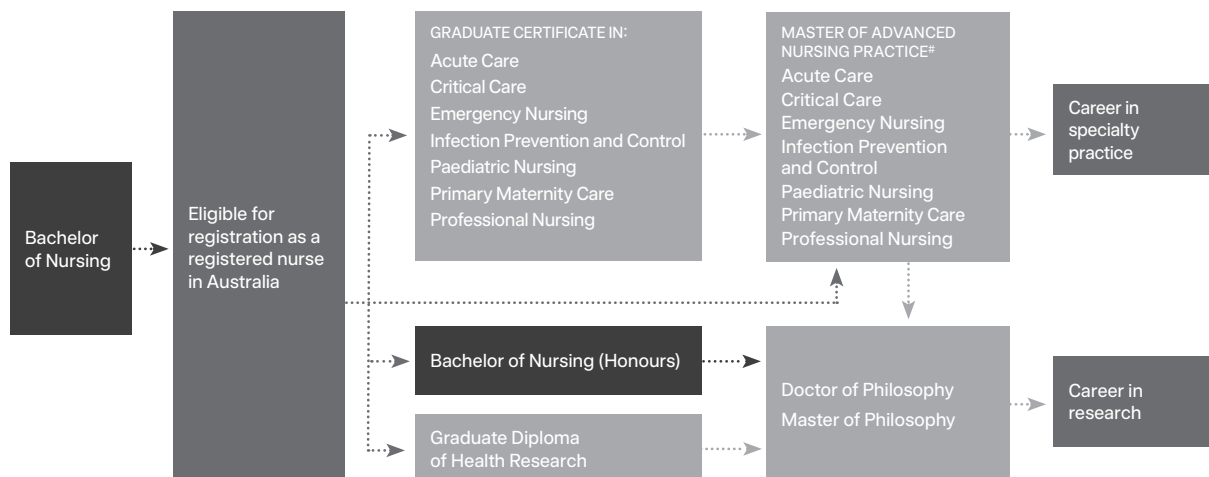

^ As these requirements may change from time to time, students should contact AHPRA to confirm registration specifications.

* Students who hold a current and unrestricted licence as a registered midwife with the Nursing and Midwifery Board of Australia can apply to study the **Prescribing for Midwives course**, leading to endorsement as a prescriber.

† Students who complete the dissertation component in the Masters program will have a pathway to higher degree research study.

Nursing career pathways

Students who complete the dissertation component in the Masters programs will have a pathway to higher degree research study.

Cassandra Nest is a proud Ngunnawal woman who grew up on Yugembeh and Bundjalung Country on the Gold Coast and Northern NSW. A consistently high-performing student, Cassandra accepted a joint appointment from Midwifery@Griffith and the Gold Coast University Hospital (GCUH), establishing her as the first Aboriginal academic within the Midwifery@Griffith Team. In this dream role, Cassandra is now at the forefront of building a culturally safe midwifery workforce and birthing environments for First Peoples women. Each year, she mentors First Peoples midwifery students in a practical setting, to ensure they are both receiving, promoting and providing culturally safe care for First Peoples women, babies and families, and their communities.

Cassandra Nest

Pharmacy career pathways

Griffith University adjunct lecturer in suicidology and veteran stand-up comedian Mark McConville has always had an inkling that laughter truly is the best medicine. Now, thanks to his research into the impact of humour on mental health—undertaken during his masters studies at Griffith—he can prove it. Inspired by a chance encounter after a gig on a cruise ship, Mark developed a five-week laughter education program, The Laughter Clinic, for people with stress, anxiety and depression. “My program is a world first,” Mark says. “It’s about exploring what it is that makes you laugh.” Having come to postgraduate study after nearly two decades as a professional comedian, Mark says Griffith was the ideal place to start his next chapter. “It’s a very nurturing environment here at Griffith, I’ve found, which has been great.”

Mark McConville

“Through my study, I have found a new passion in working with different cultures.”

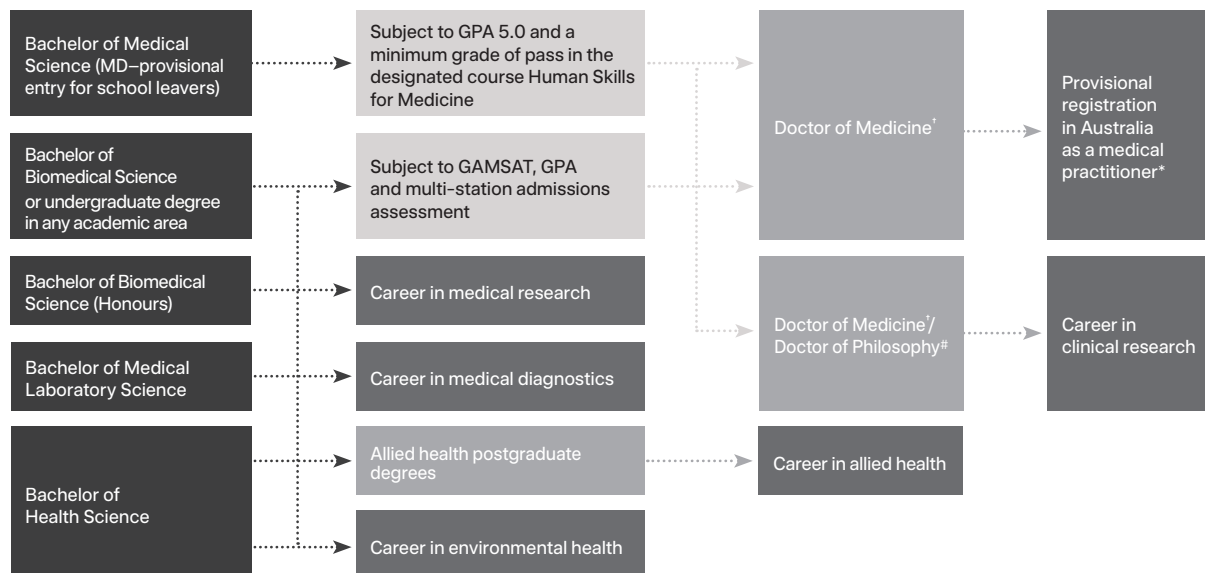

“I chose psychology and rehabilitation counselling after listening to my family talk about their careers in psychology and nursing. I naturally love to listen to people and try to immerse myself in their stories, and have thoroughly enjoyed this aspect of my degree. Through my study, I have found a new passion in working with different cultures. This has sparked my interest in helping refugees who have experienced trauma find independence in Australia, while also honouring their cultural perspectives and beliefs. Rehabilitation counsellors are equipped to work with disadvantaged or marginalised groups to achieve work and life goals, and I feel like these services are needed now more than ever.”

Alice Rowe
 Bachelor of Psychological Science/
 Master of Rehabilitation Counselling

Psychology career pathways[^]

Medical science career pathways

[#] To be eligible for the MD/PhD pathway applicants must meet specific criteria. Further information can be found on griffith.edu.au/degrees

^{*} International students and any student whose prior education (school or university) has been undertaken outside of Australia are recommended to check with the Australian Health Practitioner Regulation Agency (AHPRA) regarding their eligibility for registration in Australia (particularly with regard to English language requirements). Potential future employers (e.g. Queensland Health) should also be contacted regarding eligibility for employment as an intern.

[†] This qualification is an extended Masters program (AQF level 9).

Astrid Jorgensen is bringing music to the masses with her wildly successful project, Pub Choir. After several years leading choirs around Brisbane, she hit on an ingenious way of spreading her love of singing—hosting an informal sing-along at a pub in West End. After the success of the project, she took Pub Choir global—with sold-out gigs in the United States and at festivals—before launching 'Couch Choir' during COVID. "The Con is an amazing place to study and gain contemporary performance experience. I loved being with other people who were equally passionate about music and I had fantastic teachers. I don't think I could lead Pub Choir if I didn't have that training."

Astrid Jorgensen

Master of Music Studies (Vocal Performance)

Griffith Film School PhD candidate Lachlan Pendragon has achieved the ultimate goal for a student filmmaker—a Gold Student Academy Award. His hilarious film, *An Ostrich Told Me the World Is Fake and I Think I Believe It*, was also nominated for best animated short film at the Oscars, and has generated worldwide acclaim. He spent 10 months filming and creating the film in his mother's living room during lockdown. "The Film School provides space for filmmakers like me to explore, innovate and experiment with new ways of filmmaking."

Lachlan Pendragon

Bachelor of Animation

Griffith Film School PhD candidate

PhDs and research degrees

Take your postgraduate study further with a Griffith PhD or research degree.

As a research candidate at Griffith, you'll have the opportunity to learn from researchers who are making significant contributions to contemporary challenges and global issues. In the most recent Excellence in Research for Australia (ERA) ranking, Griffith was rated well above world standard—the highest possible result—in 20 specific fields of research across the University, making us one of Australia's leading research universities.

We host more than 20 research centres and institutes across our campuses, and—with more than 1,700 experts conducting research—we provide multidisciplinary and practical research supervision. We're committed to providing high-quality research training and opportunities to explore collaborative and socially responsive research through your research degree.

Focus areas include climate action, clean energy, disability and rehabilitation, health and chronic diseases, drug discovery, water science, criminology, quantum physics, sport, nursing, and child, youth and family wellbeing.

Discover the benefits of studying a research degree at Griffith at griffith.edu.au/research-study

Doctorates

Doctor of Philosophy

As the highest level of education achievable, the Doctor of Philosophy (PhD) is our premier research training degree. To be awarded a PhD, you'll develop a thesis, prepared under supervision, that makes an original, significant and extensive contribution to knowledge and understanding in your field of study. Your thesis will be judged by independent experts in accordance with accepted contemporary international standards. We also offer a combined Doctor of Medicine/ Doctor of Philosophy.

Professional Doctorates

A professional doctorate integrates professional and research work, including a supervised research project and an advanced program of study related to your practitioner settings and responsibilities. The degree will prepare you for leadership in an area of specialised practice in either your profession or other applied fields.

We offer the following professional doctorates:

- Doctor of Philosophy in Clinical Psychology
- Doctor of Philosophy in Organisational Psychology
- Doctor of Education
- Doctor of Musical Arts
- Doctor of Visual Arts

Doctor of Philosophy by Prior Publication

This degree can give you formal recognition for your scholarly work if you're an established researcher of international standing and do not already hold a doctoral-level qualification. You need to have a substantial standing in your field, based on your record of academic publication. The degree will be awarded if you have, through published work, made an original scholarly contribution to knowledge and demonstrated a capacity for independent research in an area of strategic importance to the University.

Masters by research

Master of Philosophy

The Master of Philosophy (MPhil) is awarded for completing a supervised thesis. Your thesis must present original research and demonstrate knowledge of both a specific topic and its related disciplines. It is shorter than a PhD and is available across all schools and disciplines.

Specialist masters by research

We offer the following specialist masters by research degrees:

- Master of Arts Research
- Master of Design Research
- Master of Education and Professional Studies Research
- Master of Medical Research
- Master of Music Research
- Master of Science
- Master of Visual Arts Research

Pathway programs

If you don't meet the direct entry requirements for a research degree, you may consider a Graduate Diploma of Research Studies, which provides an alternative pathway into such programs. You'll undertake coursework and a dissertation in the discipline relevant to your research area of interest.

We offer the following pathway programs:

- Graduate Diploma of Criminological Research Studies
- Graduate Diploma of Health Research
- Graduate Diploma of Law Research Studies
- Graduate Diploma of Research Studies in Business
- Graduate Diploma of Research Studies in Engineering
- Graduate Diploma of Research Studies in Information Technology
- Graduate Diploma of Research Studies in Science

How to apply

You can apply for admission into a research degree at Griffith directly via our website. Visit griffith.edu.au/research-study to apply online.

Before applying, visit our website for help to find an existing research project or develop your own research proposal. You'll also be able to look for a supervisor with expertise that fits your project and confirm they are available to act as your supervisor.

Visit experts.griffith.edu.au to find a potential supervisor in your chosen discipline or field of research. You can browse by research area, researcher or publications. We also recommend that you check your scholarship eligibility before you apply.

What will it cost?

The Australian Government Research Training Program and Griffith University funding cover domestic students' tuition fees for most research degrees. For more information about tuition fees and charges for all research degrees, visit griffith.edu.au/research-study

Scholarships

We offer scholarships to postgraduate students throughout the year. Research degree scholarships can cover tuition fees, overseas student health cover, living allowances paid as stipends and relocation allowances.

Scholarship opportunities will be offered throughout the year for particular research areas and industry collaborations, and if you are a current candidate, there are additional scholarship schemes available.

We also offer Industry PhD scholarships, giving you the opportunity to undertake research in collaboration with an industry partner, providing practical experience while you complete your PhD.

For more information, visit griffith.edu.au/research-study

After completing his undergraduate studies in electrical and electronic engineering with Griffith, David Prime continued to nurture his long-held interest in biomedical science by pursuing a Doctor of Philosophy to further understand epileptic seizures and brain connectivity. Under the guidance of Dr Sasha Dionisio—a world leader in epilepsy treatment and research at Brisbane's Mater Hospital—David applied his engineering knowledge to develop a program that helps clinicians better understand brain networks during electrical stimulation. "The opportunity afforded to me via my studies at Griffith has provided exposure to cutting-edge epilepsy research and mentoring from very experienced academics and a great industry mentor," David says. "I particularly like the broad knowledge base that I have acquired by working on site at the Mater Hospital. I have learned much about the tests and diagnostic processes used in clinical neuroscience."

David Prime
Doctor of Philosophy

First Peoples

With the largest Indigenous student population of any Queensland university, Griffith is committed to Aboriginal and Torres Strait Islander student success.

Supporting your success

The GUMURRII Student Success Unit (SSU) is Griffith University's dedicated services unit for all First Peoples students. Our staff provide access to a range of supplementary services and support including assistance with enrolment, orientation and graduation.

With dedicated centres on each of Griffith's campuses, GUMURRII staff are there for undergraduate and postgraduate students throughout their university journeys, as well as for students who study online. GUMURRII SSU fosters a safe and culturally appropriate learning environment.

Griffith is also committed to closing the gap in health outcomes between Australia's First Peoples and other Australians. Established in 2016, the First Peoples Health Unit is committed to Aboriginal and Torres Strait Islander student success, contributing to the highly skilled, highly educated Aboriginal and Torres Strait Islander health workforce. The Unit complements the activities of GUMURRII, the Indigenous Research Unit and the broader University community.

Tutorial assistance

The Tutoring for Success Program (TSP) is a supplementary funding initiative that is offered in partnership with the Commonwealth Government and aims to continually strengthen First Peoples student retention, progression and success at Griffith University.

The TSP funding covers the costs of tutorial support to eligible students. To register for TSP, visit griffith.edu.au/gumurrii under Tutoring for Success.

Connect with culture

With a diverse, thriving and vibrant community of First Peoples students at Griffith, we generate opportunities for students to connect to country and culture all year round. The University has a proud history of working with Elders, and developing First Peoples community engagement strategies and partnerships for community empowerment.

The Griffith University Elders and First Peoples Knowledge Holders Advisory Board provides strategic advice and guidance to the Vice Chancellor on:

- establishing and maintaining effective and ongoing engagement and consultative mechanisms with First Peoples communities and partners
- priorities, strategies and initiatives for First Peoples teaching and learning, and research and engagement.

In the academic space, Griffith's Indigenous Research Unit promotes the sharing of knowledge through its Indigenous Research and Knowledges seminars. These seminars have explored a range of topics, including Native Title, water and truth-telling, First Nations music as a determinant of health, Indigenous education policies and community-based research.

For more information about Griffith's commitment to our First Peoples communities, visit griffith.edu.au/first-peoples

Pathway to medicine

The Griffith graduate entry medical program (MD) welcomes applications from Aboriginal and/or Torres Strait Islander students from diverse academic backgrounds via our First Peoples Health Pathway. Find out more at griffith.edu.au/gumurrii/apply-to-study

“GUMURRII provides for me a quiet haven for study, sound advice and support, which has personally helped me to be able to achieve at university.”

Alan Fenwick
Master of Education

“There are lots of opportunities for First Australians to have a say and make a difference.”

Doctor of Philosophy candidate—and Bachelor of Arts (Psychology)/Bachelor of Education (Primary) and Bachelor of Psychological Science (Honours) graduate—Leda Barnett sees the team at GUMURRII Student Success Unit as ‘pivotal’ in her success at university, thanks to the academic, cultural and personal support they offer her and other First Peoples students. “I established what have come to be lifelong friendships with staff and fellow students,” she says. “I know the GUMURRII SSU is a support service I can plug into at any time.” After completing her undergraduate studies at Griffith, she knew she wanted to return for her postgraduate studies. “Griffith University is increasingly coming to understand the importance of the perspectives of First Australians to research and course content, meaning there are lots of opportunities for First Australians to have a say and make a difference,” she says.

Leda Barnett
Doctor of Philosophy
